## STANDARD INQUIRY.

Clark Again Gave Testimony, at Newark.

ME TOLD OF BEING ARRESTED.

Said the Standard Got After Him Because He Quit to Work For a Rival Firm. Failed to Prove Two of the Charges Made Against Him.

NEWARK, March 3 .- Attorney General Monnett, in his investigation of the Standard Oil company, placed W. H. Clark again on the stand. Clark was not allowed to reiterate the evidence of Wednesday relative to the defendant's business methods, especially those methods which related to the driving out of rural oil firms doing business in Ohio. He testified that Manager Matthews of Columbus had sworn in a case here that company books were burned there last fall. Many questions were ruled out on objection of the defense.

An effort was made by the defense to break down the testimony of the witness by showing that he had been arrested for forgery, grand larceny and for embezzlement. He admitted that he had been arrested on an affidavit furnished by the company's men; said that the only evidence against him at the trial was furnished by men in lucrative positions with the company, and that they only filed the complaints against him after they found that he was going into the employ of a rival company.

The charges of grand larceny and forgery were dismissed for want of evidence, and the one of embezzlement was under advisement by the magistrate. Clark adhered to his story through a rigid cross-examination and testified that he had handled \$800 per day for the company in Columbus, had handled \$400 per day here and had never been under arrest for a crime or misdemeanor before.

#### Reformers Didn't Amalgamate.

CINCINNATI, March 3.—The general conference of the National Union Reform party concluded its work. Its organization preparatory to nominating an independent presidential ticket next year will be completed when the national executive committee meets at Buffalo, June 29. The effort to amalgamate the Populists, Silver Republicans, Socialist Labor party, the National Liberty party and other scattering elements was not successful

#### An Oil Strike.

MARIETTA, March 3.—The United States Oil company, which recently purchased the lease on the Davis farm above this city for \$20,000, got a fine well, reported to be good for 500 barrels per day. When the sand was struck the well flowed over the derrick. The owner of the farm died four weeks ago, after trying for 15 years to have his farm tested, and the next day No. 1 was struck for 200 barrels.

#### New Coal Carrying Rates.

COLUMBUS, March 3.—At a meeting of the executive committee of the Ohio Coal Traffic association it was decided to restore the cut of 10 cents recently made in coal rates on all the roads in the association. It was also decided to reissue the joint tariff, each road certifying the tariff as its individual rates to conform with the court's ruling on the joint traffic agreement.

#### Jones Probably Won.

Toledo, March 3.-Indications are that S. M. Jones, Toledo's socialist mayor, secured enough delegates at the primaries to renominate him at the Republican city convention Saturday. The fight for the nomination has been exceedingly bitter.

#### BRIBERY INVESTIGATION.

#### Witnesses Subpænaed to Appear Before Pennsylvania Legislative Committee.

HARRISBURG, March 3.—The committee to investigate the bribery charges in connection with the passage of the Mc-Carrell jury bill in the house met last evening in the judiciary general committee room. Representative William C. Kreps of Franklin presided and the other members present were Representatives William H. Koontz of Somerset, Charles E. Voorhees of Philadelphia and Michael J. Tighe of Luzerne. Captain George W. Skinner of Fulton, the fifth member of the committee, was absent.

Subpœnas were issued by Chairman Kreps, upon application of General Koontz, for Representatives Engler of Lycoming, Criste of Northumberland and Smith of Cameron and Colonel George Nox McCain and John P. Dwyer of the Philadelphia Press. General Koontz said after the meeting of first appeared. the committee that all of those gentlemen were present and willing to testify in substantiation of the charges contained in his resolution calling for an investigation.

#### THE POPE WAS BETTER.

He Declared It Was a Miracle of God That He Was Still Alive-His Temperature Fell.

Rome, March 3.-News from the vatican is that the pope's temperature had fallen several points. It appears that his disinclination to observe the recommendations of his physicians forms an obstacle in the way of prompt recovery. He has full confidence in his own strength, and does not readily acquiesce n their advice not to move. During the ftermoon he insisted upon leaving his bed without assistance and also read several telegrams. The rise in his temperature, which has given some anxiety, was probably caused in part in this way. The doctors exclude everybody from his apartments except his personal at-

The pope said during the day: "It is miracle of God that I am still alive, for he wishes to spare his church a terrible crisis at the present moment."

During the afternoon the doctors made prolonged visit, lasting more than an r, which caused some uneasiness, but on leaving they gave reassuring reports. Prof. Mazzoni saying there was not the least fear that the pleura, bronhad cubes or lungs would be affected. The pope's nephew also visited him in the course of the afternoon and left his han ber much pleased at his progress. Despite these optimistic reports grave

Reported That He Was Getting Better Rapidly-Sickness of His Two Children.

NEW YORK, March 3.-Mr. Doubleday came down from the Kipling apartments last night and said that Rudyard Kipling was making rapid improve-

"Dr. Janeway will not come back to the hotel tonight," said Mr. Doubleday. There is no reason why he should. Mr. Kipling is making such progress that Dr. Janeway's continued presence is unnecessary. Moreover, he will not issue another bulletin until 3:30 o'clock Friday afternoon.

An indication that the patient was getting along well was that last night ne asked to be shown the newspapers and ne seemed to be greatly pleased and affected at the interest in his illness shown by the American people.

By sleeping he in a great measure recuperated his strength, and the promises are very bright for his speedy recovery. Josephine, one of the children, was

suffering from pneumonia and it was not known whether she was absolutely out of danger. The younger of Mr. Kipling's daughters, Ellie, a child of 3, was said by Mr. Doubleday to be suffering from nothing more serious than a severe attack of bronchitis, and he said it was hoped that the physicians would be able to save her from pneumonia.

The following summary of the four years' work by Postmaster Miskall will prove interesting. During that time LONG SO ADVISED CONGRESS. two carriers have been added and the salaries of three clerks and a messenger have been increased. The carrier system has been extended considerably. A request for an additional carrier was recently made, but has not been granted, owing to limited appropriation. The request for an electric stamping machine has been granted and the machine will be installed soon. Four years ago 11 pouches were received and dispatched daily, but now 16 is the number. Carrier service was offered the East End, but was refused as the present method gives better service.

Receipts for the four years have been as follows: 1895, \$21,975.10; 1896, \$23,-481.70; 1897, \$23,990.80; 1898, \$24,370.40. This is exclusive of money order business of which hundreds of thousands of dollars were handled.

During the time two clerks were maried. They were Miss Dora Moore and Miss Nellie Layton.

It May Stop Work on New Naval Vessels.

Conferrees on the Naval Appropriation Bill Differed Obstinately on the Armor Price-Plant Couldn't Be Built Inside of Two Years.

Washington, March 3. - The controversy over the price to be paid for armour plate deadlocked the progress of the naval appropriation bill. The conferrees met and it was soon apparent that an agreement could be speedily reached upon all the contested points except that relating to armor plate.

Secretary Long and Captain O'Neill, chief of ordnance, advised congress that the action of the senate, if adhered to, meant the total stoppage of all naval construction, for not a ship can be added to the navy if the terms of the appropriation act followed. It is declared by the department that no armor can be procured for \$300 per ton, and a clause in the appropriation bill provides that no ships shall be built until the armor is contracted for.

The ordnance officers further say that an armor plant could not be constructed and begin to supply the armor inside of two years at the earliest, and the limit of cost fixed by the senate amendment for the plant is less than essary by the special naval board which investigated the whole subject of gov-

WASHINGTON, March 3 .- The house paid its last tribute of respect to the memory of the late Representative Hurey of New York by adjourning until to-

lay at 11 o'clock. An attempt was made to consider the resolutions reported by the judiciary committee declaring that Gen. Wheeler and the three other members who accepted commissions in the army had thereby vacated their seats, but the house, by an overwhelming vote, refused to consider them. The political division upon this vote was significant. The vote stood 77 ayes, cast by 21 Republicans, 43 Democrats and 13 Popuists, and 146 nays, cast by 101 Republi-

cans, 44 Democrats and 1 Populist. A half million dollars each was appropriated under suspension of the rules for the pan-American exposition at Buffalo and the Ohio centennial at Toledo. The senate bill carrying \$1,000,-000 for a new building for the department of justice was passed and two public building bills attached by the senate to bills for public buildings in other cities were agreed to, one appropriating \$250,000 for a building at Los Angeles, and the other \$75,000 for a building at New Brighton, Pa. The senate bill appropriating \$148,000 to purchase 120,000 acres of land in accordance with the provisions of the treaty with the lower Brule Indians was passed. A number of conference reports on minor bills were adopted.

WASHINGTON, March 3.-The house paid its last tribute of respect to the memory of the late Representative Hurlev of New York by adjourning until today at 11 o'clock

An attempt was made to consider the resolutions reported by the judiciary committee declaring that Gen. Wheeler and the three other members who acepted commissions in the army had thereby vacated their seats, but the house, by an overwhelming vote, refused to consider them. The political division upon this vote was significant. The vote stood 77 ayes, cast by 21 Republicans, 43 Democrats and 13 Populists, and 146 nays, cast by 101 Republi-

cans, 44 Democrats and 1 Populist. A half million dollars each was appropriated under suspension of the rules for the pan-American exposition at Buffalo and the Ohio centennial at Toledo. The senate bill carrying \$1,000,-000 for a new building for the department of justice was passed and two public building bills attached by the senate to bills for public buildings in other cities were agreed to, one appropriating \$250,000 for a building at Los Angeles, and the other \$75,000 for a building at New Brighton, Pa. The senate bill appropriating \$148,000 to purchase 120,000 acres of land in accordance with the provisions of the treaty with the lower Brule Indians was passed. ### STANDARD INQUIRY.

Clark Again Gave Testimony. at Newark.

ME TOLD OF BEING ARRESTED.

Said the Standard Got After Him Because He Ouit to Work For a Rival Firm. Failed to Prove Two of the Charges Made Against Him.

NEWARK, March 3 .- Attorney General Monnett, in his investigation of the Standard Oil company, placed W. H. Clark again on the stand. Clark was not allowed to reiterate the evidence of Wednesday relative to the defendant's business methods, especially those methods which related to the driving out of rural oil firms doing business in Ohio. He testified that Manager Matthews of Columbus had sworn in a case here that company books were burned there last fall. Many questions were ruled out on objection of the defense,

An effort was made by the defense to break down the testimony of the witness by showing that he had been arrested for forgery, grand larceny and for embezzlement. He admitted that he had been arrested on an affidavit fur- doubts are entertained as to the issue of nished by the company's men; said that the only evidence against him at the trial was furnished by men in lucrative positions with the company, and that they only filed the complaints against him after they found that he was going into the employ of a rival company.

The charges of grand larceny and forgery were dismissed for want of evidence, and the one of embezzlement was under advisement by the magistrate. Clark adhered to his story through a rigid cross-examination and testified that he had handled \$800 per day for the company in Columbus, had handled \$400 per day here and had never been under arrest for a crime or misdemeanor before.

#### Reformers Didn't Amalgamate.

CINCINNATI, March 3.—The general conference of the National Union Reform party concluded its work. Its organization preparatory to nominating an independent presidential ticket next year will be completed when the national executive committee meets at Buffalo, June 29. The effort to amalgamate the Populists, Silver Republicans, Socialist Labor party, the National Liberty party and other scattering elements was not successful.

MARIETTA, March 3.—The United States Oil company, which recently purchased the lease on the Davis farm above this city for \$20,000, got a fine well, reported to be good for 500 barrels per day. When the sand was struck the well flowed over the derrick. The owner of the farm died four weeks ago, after trying for 15 years to have his farm tested, and the next day No. 1 was struck for 200 barrels.

#### New Coal Carrying Rates.

Columbus, March 3.—At a meeting of the executive committee of the Ohio Coal Traffic association it was decided to restore the cut of 10 cents recently made in coal rates on all the roads in the association. It was also decided to reissue the joint tariff, each road certifying the tariff as its individual rates to conform with the court's ruling on the joint trafne agreement.

#### Jones Probably Won.

Toledo, March 3.—Indications are that S. M. Jones, Toledo's socialist mayor, secured enough delegates at the primaries to renominate him at the Republican city convention Saturday. The fight for the nomination has been exceedingly bitter.

#### BRIBERY INVESTIGATION.

#### Witnesses Subpænaed to Appear Before Pennsylvania Legislative Committee.

HARRISBURG, March 3.—The committee to investigate the bribery charges in connection with the passage of the Mc-Carrell jury bill in the house met last evening in the judiciary general committee room. Representative William C. Kreps of Franklin presided and the other members present were Representatives William H. Koontz of Somerset, Charles E. Voorhees of Philadelphia and Michael J. Tighe of Luzerne. Captain George W. Skinner of Fulton, the fifth member of the committee, was absent.

Subpœnas were issued by Chairman Kreps, upon application of General Koontz, for Representatives Engler of Lycoming, Criste of Northumberland and Smith of Cameron and Colonel George Nox McCain and John P. Dwyer of the Philadelphia Press. General Koontz said after the meeting of first appeared. the committee that all of those gentlemen were present and willing to testify in substantiation of the charges contained in his resolution calling for an investigation.

THE POPE WAS BETTER.

He Declared It Was a Miracle of God That He Was Still Alive-His Temperature Fell.

ROME, March 3. - News from the vatican is that the pope's temperature had fallen several points. It appears that his disinclination to observe the recommendations of his physicians forms an obstacle in the way of prompt recovery. He has full confidence in his own strength, and does not readily acquiesce in their advice not to move. During the fternoon he insisted upon leaving his bed without assistance and also read several telegrams. The rise in his temperature, which has given some anxiety,

was probably caused in part in this way. The doctors exclude everybody from his apartments except his personal at-

The pope said during the day: "It is a miracle of God that I am still alive, for he wishes to spare his church a terrible crisis at the present moment.'

During the afternoon the doctors made e prolonged visit, lasting more than an ar, which caused some uneasiness, but on leaving they gave reassuring reports. Prof. Mazzoni saying there was not the least fear that the pleura, bronand tubes or lungs would be affected. The pope's nephew also visited him in the course of the afternoon and left his chamber much pleased at his progress. Despite these optimistic reports grave

#### KIPLING IMPROVING.

Reported That He Was Getting Better Rapidly-Sickness of His Two Children.

NEW YORK, March 3.—Mr. Doubleday came down from the Kipling apartday came down from the Kipling apart-ments last night and said that Rudyard infantry, at Madison barracks, Thir-Kipling was making rapid improve-

"Dr. Janeway will not come back to the hotel tonight," said Mr. Doubleday. There is no reason why he should. Mr. Kipling is making such progress that Dr. Janeway's continued presence is unnecessary. Moreover, he will not issue another bulletin until 3:30 o'clock Friday afternoon.

An indication that the patient was getting along well was that last night he asked to be shown the newspapers and he seemed to be greatly pleased and affected at the interest in his illness shown by the American people.

By sleeping he in a great measure re-

cuperated his strength, and the promises are very bright for his speedy recovery. Josephine, one of the children, was suffering from pneumonia and it was not known whether she was absolutely out of danger. The younger of Mr. Kipling's daughters, Ellie, a child of 3, was said by Mr. Doubleday to be suffering from nothing more serious than a severe attack of bronchitis, and he said it was hoped that the physicians would be able to save her from pneumonia.

William promoted his brother, Prince Henry of Prussia, to command the cruiser squadron.

Interesting Summary of What M. E. Miskall and His Force

#### Have Done.

The following summary of the four years' work by Postmaster Miskall will prove interesting. During that time 1.0NG two carriers have been added and the salaries of three clerks and a messenger have been increased. The carrier system has been extended considerably. A request for an additional carrier was recently made, but has not been granted. owing to limited appropriation. The request for an electric stamping machine has been granted and the machine will be installed soon. Four years ago 11 pouches were received and dispatched daily, but now 16 is the number. Carrier service was offered the East End, but was refused as the present method gives better service.

Receipts for the four years have been as follows: 1895, \$21,975.10; 1896, \$23,-481.70; 1897, \$23,990.80; 1898, \$24,370.40. This is exclusive of money order business of which hundreds of thousands of dollars were handled.

### IMPROVING THE OFFICE

Postmaster Baird Has Ordered New Boxes.

WANTS TO GIVE GOOD SERVICE

New Arrangement For Sunday School Classes-Cottage Lecture Well Attended. Another Building Started-First Kiln

Some extensive improvements will be made at the postoffice by Postmaster Baird next month. A new combination case composed of lock boxes, general delivery and individual boxes will be placed in the office replacing the one now in use, and several other minor changes will be made. Mr. Baird stated yesterday evening that it was his desire to give the public as good a service as possible, and with this end in view the change will be made.

#### Cottage Lecture.

Rev. Edwin Weary, rector of St. Stephen's Episcopal church, last evening at the residence of Mr. and Mrs. Thomas Hayes, in Pennsylvania avenue, delivered an interesting lecture to a large audience. The meeting was termed a cottage lecture, and the subject "The introduction of Christianity into England in the early days" was well treated. A number of these meetings will be held during the spring, and if possible, a different speaker will be secured for each.

#### Some of the Sick.

Motorman Dotts, who has been suffering with a severe attack of pneumonia at the home of Mrs. Hamilton, is improving rapidly, and will be out next

Mrs. Bell, who was severely injured by falling while hanging curtains last week, is able to be about.

The father of Mrs. Owen is seriously ill, suffering with an attack of pneumonia at the home of his daughter in Mulberry street. His condition is not serious.

#### Nicely Arranged Church.

The carpet was laid yesterday in the Second U. P. church and today the seats are being put in position. When the church is opened it will be one of the neatest in the city. The auditorium is divided from the lecture room by rolling partitions and nine small class rooms are situated in the rear of this room. The church will be lighted by electricity, and the chandeliers have been placed in position.

#### Scattering the School.

The classes of the Second U. P. Sunday school will meet at the homes of their teachers next Sunday afternoon. This arrangement has been made necessary by the fact that the frame building in which the services were held is being improved and the new church is not ready for occupancy. The idea will be carried out but one Sunday.

#### In April.

The culvert in Pennsylvania avenue will not be completed until April. This is more time than was thought to be necessary at first but the recent rains have caused a suspension in the work. When this culvert is finished the same workmen will erect a bridge across Lake's run in North street at High. This action was authorized by council some time ago.

#### Missionary Society Meetings,

The Ladies' Missionary societies of the various churches met yesterday afternoon, and each held interesting sessions. The attendance was large in each instance and much business was transacted. The lecture by a missionary to China was discussed by the society of the Presbyterian church. It will be held in the church next week.

#### Another Building Started.

Stone masons yesterday commenced work upon the new house to be erected in Mulberry street by Capt. Abner Martin. A portion of the foundation was built before the cold weather but since that time nothing has been done. The house will be completed and ready for occupancy about the first of May.

#### Improving Property.

The Arnold property in First avenue is being extensively improved. A number of changes are being made, and when it is completed it will be one of the best arranged buildings in East End.

### IMPROVING THE OFFICE

Postmaster Baird Has Ordered New Boxes.

WANTS TO GIVE GOOD SERVICE

New Arrangement For Sunday School Classes-Cottage Lecture Well Attended. Another Building Started-First Kiln

Some extensive improvements will be made at the postoffice by Postmaster Baird next month. A new combination case composed of lock boxes, general delivery and individual boxes will be placed in the office replacing the one now in use, and several other minor changes will be made. Mr. Baird stated vesterday evening that it was his desire to give the public as good a service as possible, and with this end in view the change will be made.

#### Cottage Lecture.

Rev. Edwin Weary, rector of St. Stephen's Episcopal church, last evening at the residence of Mr. and Mrs. Thomas Hayes, in Pennsylvania avenue, delivered an interesting lecture to a large audience. The meeting was termed a cottage lecture, and the subject "The introduction of Christianity into England in the early days" was well treated. A number of these meetings will be held during the spring, and if possible, a different speaker will be secured for each.

#### Some of the Sick.

Motorman Dotts, who has been suffering with a severe attack of pneumonia at the home of Mrs. Hamilton, is improving rapidly, and will be out next

Mrs. Bell, who was severely injured by falling while hanging curtains last week, is able to be about.

The father of Mrs. Owen is seriously ill, suffering with an attack of pneumonia at the home of his daughter in Mulberry street. His condition is not serious.

#### Nicely Arranged Church.

The carpet was laid yesterday in the Second U. P. church and today the seats are being put in position. When the church is opened it will be one of the neatest in the city. The auditorium is divided from the lecture room by rolling partitions and nine small class rooms are situated in the rear of this room. The church will be lighted by electricity. and the chandeliers have been placed in position.

#### Scattering the School.

The classes of the Second U. P. Sunday school will meet at the homes of their teachers next Sunday afternoon. This arrangement has been made by the fact that the necessary frame building in which the services were held is being improved and the new church is not ready for occupancy. The idea will be carried out but one Sunday.

#### In April.

The culvert in Pennsylvania avenue will not be completed until April. This is more time than was thought to be necessary at first but the recent rains have caused a suspension in the work. When this culvert is finished the same workmen will erect a bridge across Lake's run in North street at High. This action was authorized by council some time ago.

#### Missionary Society Meetings.

The Ladies' Missionary societies of the various churches met yesterday afternoon, and each held interesting sessions. The attendance was large in each instance and much business was transacted. The lecture by a missionary to China was discussed by the society of the Presbyterian church. It will be held in the church next week.

#### Another Building Started.

Stone masons yesterday commenced work upon the new house to be erected in Mulberry street by Capt. Abner Martin. A portion of the foundation was built before the cold weather but since that time nothing has been done. The house will be completed and ready for occupancy about the first of May.

#### Improving Property.

The Arnold property in First avenue is being extensively improved. A number of changes are being made, and when it is completed it will be one of the best arranged buildings in East End.

# THE CITY OF BUTLER | WELL PLEASED. Irondale Teachers Like the Liverpool

Spot.

Ar East Liverpool Resident Relates His Experience While Visiting This Well ordered and Beautiful City of the Keystone State.

The writer knows whereof he speaks, he has had the pleasure of sojourning for a short time with the hustling and courteous residents.

Transportation facilities are all that can be desired. Four railroads now connect at this point, with the fifth line rapidly approaching completion. The enrrounding country is rich in coal, limestone, fire clay, timber, oil and present at work on the reports for the gas. The outlying farming district is rich and productive. The water supply of the live little city is superb, and the conditions are such that a water famine would be next to an impossibility. Three gas companies furnish an abundance of cheap fuel. There are two telephone companies, the Bell and the Anderson will make a capable and effic-People's, with about 600 phones in the city. There are 11 Protestant and two Oatholic churches. Butler now has about six miles of paved streets, and the spirit of progress and improvement now this number in the not distant future.

Butler has four school houses, and more than 2,000 scholars are in daily attendance. Besides these schools, there are two handsome parochial buildings, with a daily attendance of over 500 papils.

There are three banks, and they are in a flourishing condition, with deposits aggregating about \$3,500,000. Butler is the county seat, with between eleven and twelve thousand inhabitants. The court house is a beauty in design and finish, and the citizens can justly take pride in the splendid stone structure.

There are eight hotels, three temperonce houses and five establishments with bars attached. An offender against the license law of the state is, upon conviction, debarred from holding license again during his natural life, and his prospects for the future life are not looked opon as especially bright, cheery or nopeful.

Butler is a city builded upon a hill. The view from the top of the court house is indeed a pleasing and charming one. From this point of vantage you can catch a nice view of the Orphans' Home building and the beautiful Oity hospital, while the plate glass manufactory tells a story of coming industries; industries sure to come in the very near future, and for which negotiations are now pending.

Butler is a healthy city, although we cannot vouch for the yarn that you must kill a man in order to start a graveyard, while fair women live until they dry up and blow away.

Good order and good citizenship are in the ascendency. One policeman at present rules the roost, and we have it from reliable authority that a street fight or fracas is a rare occurrence.

BRINE, NOT CHEMICALS.

What Witnesses Saw Injected Into Beef. Walters' Sensational Testimony Contradicted.

Washington, March 3.—There were several interesting developments in the beef court of inquiry. It was a field day for the volunteer arm of the service, the waiting room being filled with members of the various volunteer regiments which served in Cuba and Porto Rico. The first of these, Clarence Walters, of the First volunteer engineers, told a sensational story of hardship and inhumanity suffered during his service, de scribing the canned roast beef in harsher terms than have ever before been applied to that much-discussed article. Later in the day, Lieutenant Sewell, U. S. A., who was major of the volunteer battalion in which Walters served, contradicted his story completely, saying there was no canned roast beef aboard the transport which took the command to Porto Rico. Further than that, he said Walters had come to him after landing and asked to be discharged, so as to accept a position as newspaper correspondent, and on being questioned, said that he had been well treated while in the service, and had no complaint to

An important development was the denial of the story by one James Farnan and also attributed to Dr. Maxwell Christine of Philadelphia that they had seen beef injected with chemicals in an Omaha packing house. Dr. Christine explained that what he had seen was the pickling of corned meats, the brine being injected into the meat to save several weeks' time in the pickling vat.

The question of counsel for General Miles before the court was still in abeyance, some correspondence having passed between the general and the court, but both sides declined to give out the letters till a settlement is reached. Gen. Miles has not asked to be represented by counsel, presumably because that would put him in the position of admitting himself on trial by the court, which he had declined to admit. On the other hand, the court did not feel able, under the articles of war, to permit Major Lee or anyone else to cross-question witnesses unless he could be recognized officially as counsel for the defense. It was stated that this matter probably would be set-

The court expected to start west Tuesday or Wednesday of next week.

RIVER AND HARBOR BILL MAY FAIL

One Point Conferrees Differed on Was the Nicaragua Canal Feature.

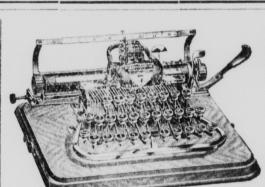

Washington, March 3.—The river and harbor conferrees adjourned last night until today, having been unable to agree. Chairman Frye of the senate conferrees said:

"We have been unable to agree; that is all there is to say.'

He was asked: "Is there any pros-

pect of agreement?" "I can't say," he replied. "It looks

very dubious. The conferrees discussed the different propositions and counter propositions that had been made regarding the Nicaragua canal bill, but upon adjournment, the house conferrees as a whole refused to allow any declaration for a Nicaragua canal in the bill, although Mr. Burton was willing to have a declaration of policy and a liberal appropriation for a commission to select the best route. The senate conferrees offered a proposition looking to an investigation as to the best route and leaving the selection to a commission, but insisting the advance.

#### BRINE, NOT CHEMICALS.

What Witnesses Saw Injected Into Beef. Walters' Sensational Testimony Contradicted.

Washington, March 3.—There were several interesting developments in the beef court of inquiry. It was a field day for the volunteer arm of the service, the waiting room being filled with members of the various volunteer regiments which served in Cuba and Porto Rico. The first of these, Clarence Walters, of the First volunteer engineers, told a sensational story of hardship and inhumanity suffered during his service, describing the canned roast beef in harsher terms than have ever before been applied to that much-discussed article. Later in the day, Lieutenant Sewell, U. S. A., who was major of the volunteer battalion in which Walters served, contradicted his story completely, saying there was no canned roast beef aboard the transport which took the command to Porto Rico. Further than that, he said Walters had come to him after landing and asked to be discharged, so as to accept a position as newspaper correspondent, and on being questioned, said that he had been well treated while in the service, and had no complaint to

An important development was the denial of the story by one James Farnan and also attributed to Dr. Maxwell Christine of Philadelphia that they had seen beef injected with chemicals in an Omaha packing house. Dr. Christine explained that what he had seen was the pickling of corned meats, the brine being injected into the meat to save sev-

eral weeks' time in the pickling vat. The question of counsel for General Miles before the court was still in abeyance, some correspondence having passed between the general and the court, but both sides declined to give out the letters till a settlement is reached. Gen. Miles has not asked to be represented by counsel, presumably because that would put him in the position of admitting himself on trial by the court, which he had declined to admit. On the other hand, the court did not feel able, under the articles of war, to permit Major Lee or anyone else to cross-question witnesses unless he could be recognized officially as counsel for the defense. It was stated that this matter probably would be settled today.

The court expected to start west Tuesday or Wednesday of next week.

RIVER AND HARBOR BILL MAY FAIL. One Point Conferrees Differed on Was

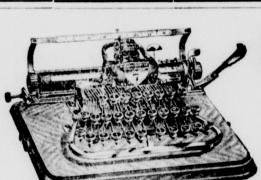

the Nicaragua Canal Feature. Washington, March 3.—The river and harbor conferrees adjourned last night until today, having been unable to agree. Chairman Frye of the senate conferrees said:

"We have been unable to agree; that is all there is to say."

He was asked: "Is there any pros-

pect of agreement?" "I can't say," he replied. "It looks very dubious.

The conferrees discussed the different propositions and counter propositions that had been made regarding the Nicaragua canal bill, but upon adjournment, the house conferrees as a whole refused to allow any declaration for a Nicaragua canal in the bill, although Mr. Burton was willing to have a declaration of policy and a liberal appropriation for a commission to select the best route. The senate conferrees offered a proposition looking to an investigation as to the best route and leaving the selection to a commission, but insisting the advance.

# HE CITY OF BUTLER | WELL PLEASED. Irondale Teachers Like the Liverpool

Spot.

An East Liverpool Resident Relates His Experience While Visiting This Well Ordered and Beautiful City of the Keystone State.

The writer knows whereof he speaks, as he has had the pleasure of sojourning for a short time with the hustling and conteous residents.

Transportation facilities are all that wer be desired. Four railroads now connect at this point, with the fifth line rapidly approaching completion. The surrounding country is rich in coal. imestone, fire clay, timber, oil and gas. The outlying farming district is rich and productive. The water supply of the live little city is superb, and the conditions are such that a water famine would be next to an impossibility. Three gas companies furnish an abundance of cheap fuel. There are two telephone companies, the Bell and the Anderson will make a capable and effic-People's, with about 600 phones in the city. There are 11 Protestant and two Oatholic churches. Butler now has about six miles of paved streets, and the spirit of progress and improvement now in the local atmosphere is sure to double this number in the not distant future.

Butler has four school houses, and more than 2,000 scholars are in daily attendance. Besides these schools, there are two handsome parochial buildings, with a daily attendance of over 500 papils.

There are three banks, and they are in a flourishing condition, with deposits aggregating about \$3,500,000. Butler is the county seat, with between eleven and twelve thousand inhabitants. The ment. court house is a beauty in design and finish, and the citizens can justly take pride in the splendid stone structure.

There are eight hotels, three temperance houses and five establishments with bars attached. An offender against the license law of the state is, upon conviction, debarred from holding license again during his natural life, and his prospects for the future life are not looked opon as especially bright, cheery or nopeful.

Butler is a city builded upon a hill. The view from the top of the court house is indeed a pleasing and charming one. From this point of vantage you can catch a nice view of the Orphans' Home building and the beautiful City hospital, while the plate glass manufactory tells a story of coming industries; industries sure to come in the very near future, and for which negotiations are now pending.

Butler is a healthy city, although we cannot vouch for the yarn that you must kill a man in order to start a graveyard, while fair women live until they dry up and blow away.

Good order and good citizenship are in the ascendency. One policeman at present rules the roost, and we have it from reliable authority that a street fight or fracas is a rare occurrence.

EAST LIVERPOOL, O., FRIDAY, MARCH

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Onion Labels at the head of their columns

This country paid more than a million dollars to send the Spanish soldiers home from Cuba, but the public seems to think the money was not wasted.

Congress will soon adjourn, but it has much important work before the final note is sounded. It is therefore to be expected that more than one man will make any number of mistakes.

THE announcement is made that Joe Froggett, of the Youngstown Telegram, will be married early next summer. It is therefore but reasonable to suppose that some young lady is very happy.

THE sentiment to allow the people and not state legislatures to elect United States senators is growing. The scandals of every year have their influence, and while the reform may not come immediately it is one of the movements American spirit will push to a successful issue.

WEEKS ago, when it was news, the News Review told the story of the slip on the Lisbon road and the danger to David O'Hanlon's house. Last night a local paper gave the information to its readers. If you want the news you must read the News Review.

THE demands of the day include a larger number of vessels and men for the American navy. They are needed now and they will be needed in years to come when the old flag will fly in every sea and the commerce of the country will have been extended to every land. Now is the time to build them.

#### A FEDERAL BUILDING.

East Liverpool has attained that place among the cities of Ohio where it deserves the destinction given every town with a federal building, but it seems the government at Washington cannot see the matter in that light. Many towns of less importance are so provided and the new appropriation carries large sums for improvements to federal property in a number of cities, yet this one has nothing of that sort. It is certainly something of an injustice that should be set right before the next congress adjourns.

#### HONEST PRIMARIES.

It is possible under the old system to conduct a primary election honestly, but when the Australian ballot is used there can be no suspicion of wrong doing. For that reason the Republican committee, when it meets to arrange for the spring contest, should order the election conducted after the manner prescribed by the law of Ohio.

The innovation will be a good thing for a number of reasons, but principally because the men who receive the largest number of votes will be declared the nominees of the party. In justice to them as well as to the friends who labor so earnestly for their success there should be no opportunity for fraud. Then the party is to be considered.
There are thousands of Republicans in
Columbiana county who have for many
years looked with suspicion upon the
primaries. They will hear with satisfaction of the adoption of the new
system, for they know the old organization has not so far forgotten itself as to refuse advancement when the opportanity appears.

EAST LIVERPOOL, O., FRIDAY, MARCH 3

35 the Week .....

All Union papers of East Liverpool are known to the various craft and unions of she city by the printing of the above Onion Labels at the head of their columns

This country paid more than a million dollars to send the Spanish soldiers home from Cuba, but the public seems to think the money was not wasted.

Congress will soon adjourn, but it has much important work before the final note is sounded. It is therefore to be expected that more than one man will make any number of mistakes.

THE announcement is made that Joe Froggett, of the Youngstown Telegram, will be married early next summer. It is therefore but reasonable to suppose that some young lady is very happy.

THE sentiment to allow the people and not state legislatures to elect United States senators is growing. The scan-States senators is growing.

dals of every year have their influence, and while the reform may not come immediately it is one of the movements American spirit will push to a successful issue.

WEEKS ago, when it was news, the News Review told the story of the slip on the Lisbon road and the danger to David O'Hanlon's house. Last night a local paper gave the information to its readers. If you want the news you must read the News Review.

THE demands of the day include a larger number of vessels and men for the American navy. They are needed now and they will be needed in years to come when the old flag will fly in every sea and the commerce of the country will have been extended to every land. Now is the time to build

#### A FEDERAL BUILDING.

East Liverpool has attained that place among the cities of Ohio where it deserves the destinction given every town with a federal building, but it seems the government at Washington cannot see the matter in that light. Many towns of less importance are so provided and the new appropriation carries large sums for improvements to federal property in a number of cities, yet this one has nothing of that sort. It is certainly something of an injustice that should be set right before the next congress adjourns.

#### HONEST PRIMARIES.

It is possible under the old system to conduct a primary election honestly, but when the Australian ballot is used there can be no suspicion of wrong doing. For that reason the Republican committee, when it meets to arrange for the spring contest, should order the election conducted after the manner prescribed by the law of Ohio.

The innovation will be a good thing for a number of reasons, but principally because the men who receive the largest number of votes will be declared the nominees of the party. In justice to them as well as to the friends who labor so earnestly for their success there should be no opportunity for fraud. Then the party is to be considered. There are thousands of Republicans in Columbiana county who have for many years looked with suspicion upon the primaries. They will hear with satisfaction of the adoption of the new system, for they know the old organization has not so far forgotten itself as to refuse advancement when the opportunity appears.

Township Trustees Must Now Retrench.

VERY FEW ROAD IMPROVEMENTS

Will Be Made This Year Because the Appropriation Was Exceeded Last Year and There Must Be a Balancing of Accounts.

The township trustees will not spend a fortune this season in improving the township roads, but will adopt a retrenchment policy.

Last year they expended a great deal of money on the roads and did their best to improve them in a permanent manner. The expenses were heavy and more money was needed to do the work than could be realized from the levy for road improvements, so the balance was taken from the general fund.

This year, in the six districts which compose the township, new road supervisors will be chosen and they will not be permitted to do any more work on the roads than is absolutely necessary. When the repairs are found too costly for the trustees to undertake the commissioners will be called upon, and the county will stand the expense of the improvement.

The trustees will endeavor to follow out the retrenchment policy, and will make the road levy pay for all improvements, and will be able to do it unless the section is visited by the usual heavy

Mrs. Dozzle Replies to the Petition of Her Busband, Asking Divorce and Alimony. she Now Resides in Indiana-Receiver Cameron Files a Suit.

LISBON, March 3.-[Special]-Judge Smith has rendered a decision in the alimony case of Mrs. Louisa Deidrick against her husband, Joseph L. Deidrick. The court granted Mrs. Deidrick the homestead in East Liverpool. The evidence showed that the vacant land owned by Joseph Deidrick is worth \$15,000, the storeroom in Broadway \$2,000 and the homestead about \$12,000 Some time ago Mrs. Deidrick was granted by the court \$2,000.

#### MRS. DOZZLE'S SIDE.

She Asks the Court For a Divorce and Alimony.

LISBON, March 3 .- [Special]-In answer to the petition for divorce of Alfred A. Dozzle, on ground of willful absence. the defendant has filed an answer and cross petition. She claims that for 12 years prior to August, 1896, Dozzle was guilty of extreme cruelty; that he refused and neglected to provide the necessaries of life; that in August, 1896, he compelled her and her child to leave home and to leave all her personal property behind. She inherited \$1,000, and she says the plaintiff squandered a part of it in drinking and fast living. With the remainder and what she could make by cleaning offices they purchased a house and lot in Garfield avenue in Liverpool, the plaintiff taking it in his name. She asks alimony for her support during the suit, and the plaintiff be enjoined from encumbering the property, and on final hearing the real estate and personal property be decreed to her. She also wants a divorce and alimony. Mrs. Dozzle is now living in Indiana.

I. B. Cameron, receiver of the Frst place is at National bank of Lisbon, has filed another petition, this time asking judgment against Willis Jordan as principal and G. W. and Andrew Armstrong as endorsers on two notes. One is for \$500, dated Oct. 14, 1891, and \$142.47 of it is due. The other is for \$1,000, and the whole amount is due.

#### DISORDERLY HOUSE

Will Likely Be Raided by the Virginia Authorities.

The Hancock county authorities will soon raid a disorderly house on the Virginia side opposite Williams' mill. They have been notified of the existence of the place and also of actions which have recently taken place The house in question is nothing less than a shanty built on the hillside, and access is gained by mounting not less than a dozen steps. It is thought the place will be raided some time next week, and already much information regarding it has been obtained.

TRADE IS BRISK

South and West All Right and the East Improving.

China, Glass and Lamps has looked Judge Smith Gave Her the over the pottery field for the week and finds that trade in all departments is exceptionally good, and west and south it is especially brisk, while in the east conditions are constantly improving. New goods that were put on the market at the first of the year, have generally been having a good run, this being especially so in novelties, odd pieces and set ware. Toilet goods are in very fair demand. Dinner ware, hotel china and restaurant ware, especially in heavy lines, is quite brisk. Jardinieres, in decorations and art glazes, are being put on the market in large variety, and some large orders have been placed for special lines of these wares. Potters are preparing for a large and steady demand.

Homestead.

Mrs. Dozzle Replies to the Petition of Her Busband, Asking Divorce and Alimony. she Now Resides in Indiana-Receiver Cameron Files a Suit.

LISBON, March 3.-[Special]-Judge Smith has rendered a decision in the alimony case of Mrs. Louisa Deidrick against her husband, Joseph L. Deidrick. The court granted Mrs. Deidrick the homestead in East Liverpool. The evidence showed that the vacant land owned by Joseph Deidrick is worth \$15,000, the storeroom in Broadway \$2,000 and the homestead about \$12,000 Some time ago Mrs. Deidrick was granted by the court \$2,000.

#### MRS. DOZZLE'S SIDE.

She Asks the Court For a Divorce and Alimony.

LISBON, March 3 .- [Special]-In answer to the petition for divorce of Alfred A. Dozzle, on ground of willful absence. the defendant has filed an answer and cross petition. She claims that for 12 vears prior to August, 1896, Dozzle was guilty of extreme cruelty; that he refused and neglected to provide the necessaries of life; that in August, 1896, he compelled her and her child to leave home and to leave all her personal property behind. She inherited \$1,000, and she says the plaintiff squandered a part of it in drinking and fast living. With the remainder and what she could make by cleaning offices they purchased a house and lot in Garfield avenue in Liverpool, the plaintiff taking it in his name. She asks alimony for her support during the suit, and the plaintiff be enjoined from encumbering the property, and on final hearing the real estate and personal property be decreed to her. She also wants a divorce and alimony. Mrs. Dozzle is now living in Indiana.

### STANDARD INQUIRY.

Clark Again Gave Testimony, at Newark.

ME TOLD OF BEING ARRESTED.

Said the Standard Got After Him Because He Quit to Work For a Rival Firm. Failed to Prove Two of the Charges Made Against Him.

NEWARK, March 3 .- Attorney General Monnett, in his investigation of the Standard Oil company, placed W. H. Clark again on the stand. Clark was not allowed to reiterate the evidence of Wednesday relative to the defendant's business methods, especially those methods which related to the driving out of rural oil firms doing business in Ohio. He testified that Manager Matthews of Columbus had sworn in a case here that company books were burned there last Many questions were ruled out on objection of the defense.

An effort was made by the defense to break down the testimony of the witness by showing that he had been arrested for forgery, grand larceny and for embezzlement. He admitted that he had been arrested on an affidavit furnished by the company's men; said that the only evidence against him at the trial was furnished by men in lucrative positions with the company, and that they only filed the complaints against him after they found that he was going into the employ of a rival company.

The charges of grand larceny and forgery were dismissed for want of evidence, and the one of embezzlement was under advisement by the magistrate. Clark adhered to his story through a rigid cross-examination and testified that he had handled \$800 per day for the company in Columbus, had handled \$400 per day here and had never been under arrest for a crime or misdemeanor before.

#### Reformers Didn't Amalgamate.

CINCINNATI, March 3.—The general conference of the National Union Reform party concluded its work. Its organization preparatory to nominating an independent presidential ticket next year will be completed when the national executive committee meets at Buffalo, June 29. The effort to amalgamate the Populists, Silver Republicans, Socialist Labor party, the National Liberty party and other scattering elements was not successful

#### An Oil Strike.

MARIETTA, March 3.—The United States Oil company, which recently purchased the lease on the Davis farm above this city for \$20,000, got a fine well, reported to be good for 500 barrels per day. When the sand was struck the well flowed over the derrick. The owner of the farm died four weeks ago, after trying for 15 years to have his farm tested, and the next day No. 1 was struck for 200 barrels.

#### New Coal Carrying Rates.

Columbus, March 3.—At a meeting of the executive committee of the Ohio Coal Traffic association it was decided to restore the cut of 10 cents recently made in coal rates on all the roads in the association. It was also decided to reissue the joint tariff, each road certifying the tariff as its individual rates to conform with the court's ruling on the joint traffie agreement.

#### Jones Probably Won.

Toledo, March 3.—Indications are that S. M. Jones, Toledo's socialist mayor, secured enough delegates at the primaries to renominate him at the Republican city convention Saturday. The fight for the nomination has been exceedingly bitter.

#### BRIBERY INVESTIGATION.

#### Witnesses Subpornaed to Appear Before Pennsylvania Legislative Committee.

HARRISBURG, March 3.—The committee to investigate the bribery charges in connection with the passage of the Mc-Carrell jury bill in the house met last evening in the judiciary general committee room. Representative William C. Kreps of Franklin presided and the other members present were Representatives William H. Koontz of Somerset, Charles E. Voorhees of Philadelphia and Michael J. Tighe of Luzerne. Captain George W. Skinner of Fulton, the fifth member of the committee, was absent.

Subpœnas were issued by Chairman Kreps, upon application of General Koontz, for Representatives Engler of Lycoming, Criste of Northumberland and Smith of Cameron and Colonel George Nox McCain and John P. Dwyer of the Philadelphia Press. General Koontz said after the meeting of the committee that all of those gentlemen were present and willing to testify in substantiation of the charges contained in his resolution calling for an investigation.

#### THE POPE WAS BETTER.

He Declared It Was a Miracle of God That He Was Still Alive-His Temperature Fell.

Rome, March 3.-News from the vatican is that the pope's temperature had fallen several points. It appears that his disinclination to observe the recommendations of his physicians forms an obstacle in the way of prompt recovery. He has full confidence in his own strength, and does not readily acquiesce n their advice not to move. During the fternoon he insisted upon leaving his bed without assistance and also read several telegrams. The rise in his temperature, which has given some anxiety, was probably caused in part in this way. The doctors exclude everybody from his apartments except his personal at-

The pope said during the day: "It is miracle of God that I am still alive, or he wishes to spare his church a terrible crisis at the present moment."

During the afternoon the doctors made prolonged visit, lasting more than an air, which caused some uneasiness, out on leaving they gave reassuring reports, Prof. Mazzoni saying there was not the least fear that the pleura, bronhial tubes or lungs would be affected. The pope's nephew also visited him in the course of the afternoon and left his chamber much pleased at his progress Despite these optimistic reports grave doubts are entertained as to the issue of

#### KIPLING IMPROVING.

Reported That He Was Getting Better Rapidly-Sickness of His Two Children.

NEW YORK, March 3.-Mr. Doubleday came down from the Kipling apartments last night and said that Rudyard Kipling was making rapid improve-

"Dr. Janeway will not come back to the hotel tonight," said Mr. Doubleday. There is no reason why he should. Mr. Kipling is making such progress that Dr. Janeway's continued presence is unnecessary. Moreover, he will not issue another bulletin until 3:30 o'clock Friday

An indication that the patient was getting along well was that last night ne asked to be shown the newspapers and ne seemed to be greatly pleased and affected at the interest in his illness

shown by the American people. By sleeping he in a great measure recuperated his strength, and the promises bright for his speedy recovery. Josephine, one of the children, was

suffering from pneumonia and it was not known whether she was absolutely out of danger. The younger of Mr. Kipling's daughters, Ellie, a child of 3, was said by Mr. Doubleday to be suffering from nothing more serious than a severe attack of bronchitis, and he said it was hoped that the physicians would be able to save her from pneumonia.

#### ENDEAVORERS' PROGRAM.

John Willis Baer Announced Some of the Plans For the Convention In Detroit.

Boston, March 3.—Secretary John Willis Baer of the United Society of Christian Endeavor announced some of the details of the program for this year's international endeavor convention to be held at Detroit, July 5 to 10.

Wednesday, July 5, will be given up to business meetings, the opening session in the evening.

July 6, the convention will listen to President Clark's annual address, the general secretary's annual report and the sermon at the morning session. Denominational meetings in afternoon; tent meetings at night.

Friday morning's tent meeting will be followed by two great schools of methods in tents.

Saturday afternoon grand outing to Belle island planned.

Saturday evening reunion by states. On Sunday, sermons, "Sabbath observance services," evangelistic meetings for men and women and consecra-

tion meetings. Monday evening, after meetings in the morning and junior rallies in the afternoon, at least two great farewell

#### ENTIRELY EXCLUDES LIQUOR.

Far-Reaching Effect of Hansbrough's Amendment to the Army Bill.

Washington, March 3.-The amendment which Senator Hansbrough offered to the army reorganization bill, and which became a part of that measure, prohibiting officers or soldiers from selling intoxicating drinks in any post or exchange, was more far-reaching than

first appeared. It went further and prohibited any other person from selling such liquors in any encampment or any place used for military purposes. This will exclude liquors from all military reservations.

#### Business In the Senate.

WASHINGTON, March 3 .- During almost the entire session the senate was engaged in routine business. Two measures of national importance were passed, the fortifications appropriation bill and the bill providing a code of criminal laws for the district of Alaska. cruiser squadron.

### POSTMASTER'S REPORT. WRANGLE OVER ARMOR

It May Stop Work on New Naval Vessels.

Conferrees on the Naval Appropriation Bill Differed Obstinately on the Armor Price-Plant Couldn't Be Built Inside of Two Years.

WASHINGTON, March 3. - The conroversy over the price to be paid for armour plate deadlocked the progress of the naval appropriation bill. The conferrees met and it was soon apparent that an agreement could be speedily reached upon all the contested points except that relating to armor plate.

Secretary Long and Captain O'Neill, chief of ordnance, advised congress that the action of the senate, if adhered to, meant the total stoppage of all naval construction, for not a ship can be added to the navy if the terms of the appropriation act followed. It is declared by the department that no armor can be procured for \$300 per ton, and a clause in the appropriation bill provides that no ships shall be built until the armor is contracted for.

The ordnance officers further say that an armor plant could not be constructed and begin to supply the armor inside of two years at the earliest, and the limit of cost fixed by the senate The cases against Thompson Hine- amendment for the plant is less than half of that found to be absolutely necessary by the special naval board which investigated the whole subject of government armor plants a few years ago.

#### WHEELER SUPPORTED.

House by a Vote of 77 to 146 Refused to Consider His Removal. Other Business.

WASHINGTON, March 3 .- The house paid its last tribute of respect to the memory of the late Representative Hurey of New York by adjourning until tolay at 11 o'clock.

An attempt was made to consider the resolutions reported by the judiciary committee declaring that Gen. Wheeler and the three other members who accepted commissions in the army had hereby vacated their seats, but the house, by an overwhelming vote, refused to consider them. The political division upon this vote was significant. The vote stood 77 ayes, cast by 21 Republicans, 43 Democrats and 13 Popuists, and 146 nays, cast by 101 Republi-

cans, 44 Democrats and 1 Populist. A half million dollars each was ap propriated under suspension of the rules for the pan-American exposition at Buffalo and the Ohio centennial at Toledo. The senate bill carrying \$1,000,-000 for a new building for the department of justice was passed and two public building bills attached by the senate to bills for public buildings in other cities were agreed to, one appropriating \$250,000 for a building at Los Angeles, and the other \$75,000 for a building at New Brighton, Pa. The senate bill appropriating \$148,000 to purchase 120,000 acres of land in accordance with the provisions of the treaty with the lower Brule Indians was passed. A number of conference reports on minor bills were adopted.

#### President May Go to Georgia.

#### Train Bearing Soldiers Wrecked.

TUPELO, Miss., March 3 .- The Mobile and Ohio train bearing homeward the Second battalion of the Second Missouri volunteers from Albany, Ga., where they were mustered out of the service Wednesday, was wrecked two miles south of this place Thursday. Four cars in which the soldiers were seated jumped the track and were hurled down a 20foot embankment. The third car from the engine was a total wreck. A number were injured.

### IMPROVING THE OFFICE

Postmaster Baird Has Ordered New Boxes.

WANTS TO GIVE GOOD SERVICE

New Arrangement For Sunday School Classes-Cottage Lecture Well Attended. Another Building Started-First Kiln Fired.

Some extensive improvements will be made at the postoffice by Postmaster Baird next month. A new combination case composed of lock boxes, general delivery and individual boxes will be placed in the office replacing the one now in use, and several other minor changes will be made. Mr. Baird stated yesterday evening that it was his desire to give the public as good a service as possible, and with this end in view the change will be made.

#### Cottage Lecture.

Rev. Edwin Weary, rector of St. Stephen's Episcopal church, last evening at the residence of Mr. and Mrs. Thomas Hayes, in Pennsylvania avenue, delivered an interesting lecture to a large audience. The meeting was termed a cottage lecture, and the subject "The introduction of Christianity into England in the early days" was well treated. A number of these meetings will be held during the spring, and if possible, a different speaker will be secured for each.

#### Some of the Sick.

Motorman Dotts, who has been suffering with a severe attack of pneumonia at the home of Mrs. Hamilton, is improving rapidly, and will be out next week.

Mrs. Bell, who was severely injured by falling while hanging curtains last week, is able to be about.

The father of Mrs. Owen is seriously ill, suffering with an attack of pneumonia at the home of his daughter in Mulberry street. His condition is not serious.

#### Nicely Arranged Church.

The carpet was laid yesterday in the Second U. P. church and today the seats are being put in position. When the church is opened it will be one of the neatest in the city. The auditorium is divided from the lecture room by rolling partitions and nine small class rooms are situated in the rear of this room. The church will be lighted by electricity, and the chandeliers have been placed in position.

#### Scattering the School.

The classes of the Second U. P. Sunday school will meet at the homes of their teachers next Sunday afternoon. This arrangement has been made necessary by the fact that the frame building in which the services were held is being improved and the new church is not ready for occupancy. The idea will be carried out but one Sunday.

#### In April.

The culvert in Pennsylvania avenue will not be completed until April. This is more time than was thought to be necessary at first but the recent rains have caused a suspension in the work. When this culvert is finished the same workmen will erect a bridge across Lake's run in North street at High. This action was authorized by council some time ago.

#### Missionary Society Meetings,

The Ladies' Missionary societies of the various churches met yesterday afternoon, and each held interesting sessions. The attendance was large in each instance and much business was transacted. The lecture by a missionary to China was discussed by the society of the Presbyterian church. It will be held in the church next week.

#### Another Building Started.

Stone masons yesterday commenced work upon the new house to be erected in Mulberry street by Capt. Abner Martin. A portion of the foundation was built before the cold weather but since that time nothing has been done. The house will be completed and ready for occupancy about the first of May.

#### Improving Property.

The Arnold property in First avenue is being extensively improved. A number of changes are being made, and when it is completed it will be one of the best arranged buildings in East End.

# WELL PLEASED. Irondale Teachers Like the Liverpool

It Is Spot.

AR East Liverpool Resident Relates His Experience While Visiting This Well Grdered and Beautiful City of the Keystone State.

The writer knows whereof he speaks, as he has had the pleasure of sojourning for a short time with the hustling and coarteous residents.

Transportation facilities are all that can be desired. Four railroads now connect at this point, with the fifth line rapidly approaching completion. The surrounding country is rich in coal, limestone, fire clay, timber, oil and gas. The outlying farming district is rich and productive. The water supply of the live little city is superb, and the conditions are such that a water famine would be next to an impossibility. Three gas companies furnish an abundance of cheap fuel. There are two telephone companies, the Bell and the People's, with about 600 phones in the city. There are 11 Protestant and two Oatholic churches. Butler now has about six miles of paved streets, and the spirit of progress and improvement now in the local atmosphere is sure to double this number in the not distant future.

Butler has four school houses, and more than 2,000 scholars are in daily attendance. Besides these schools, there are two handsome parochial buildings, with a daily attendance of over 500

There are three banks, and they are in a flourishing condition, with deposits aggregating about \$3,500,000. Butler is the county seat, with between eleven and twelve thousand inhabitants. The ment. court house is a beauty in design and finish, and the citizens can justly take pride in the splendid stone structure.

There are eight hotels, three temperance houses and five establishments with bars attached. An offender against the license law of the state is, upon con- has 'em. Figures away down. viction, debarred from holding license again during his natural life, and his prospects for the future life are not looked upon as especially bright, cheery or hopeful.

Butler is a city builded upon a hill, The view from the top of the court house is indeed a pleasing and charming one. From this point of vantage you can catch a nice view of the Orphans' Home building and the beautiful City hospital, while the plate glass manufactory tells a story of coming industries; industries sure to come in the very near future, and for which negotiations are now pending.

Butler is a healthy city, although we cannot vouch for the yarn that you must kill a man in order to start a graveyard, while fair women live until they dry up and blow away.

Good order and good citizenship are in the ascendency. One policeman at present rules the roost, and we have it from reliable authority that a street fight or fracas is a rare occurrence.

A leading agent said this morning that he believed the famine would be more severely felt than ever this year. People do not like their present locations, but cannot move from them, while inquiries from out of town people who want to come here are increasing almost with every day.

#### BRINE, NOT CHEMICALS.

What Witnesses Saw Injected Into Beef. Walters' Sensational Testimony Contradicted.

Washington, March 3.—There were several interesting developments in the beef court of inquiry. It was a field day for the volunteer arm of the service, the waiting room being filled with members of the various volunteer regiments which served in Cuba and Porto Rico. The first of these, Clarence Walters, of the First volunteer engineers, told a sensational story of hardship and inhumanity suffered during his service, de scribing the canned roast beef in harsher terms than have ever before been ap plied to 'that much-discussed article. Later in the day, Lieutenant Sewell, U. S. A., who was major of the volunteer battalion in which Walters served, contradicted his story completely, saying there was no canned roast beef aboard the transport which took the command to Porto Rico. Further than that, he said Walters had come to him after landing and asked to be discharged, so as to accept a position as newspaper correspondent, and on being questioned, said that he had been well treated while in the service, and had no complaint to make.

An important development was the denial of the story by one James Farnan and also attributed to Dr. Maxwell Christine of Philadelphia that they had seen beef injected with chemicals in an Omaha packing house. Dr. Christine explained that what he had seen was the pickling of corned meats, the brine being injected into the meat to save several weeks' time in the pickling vat.

The question of counsel for General Miles before the court was still in abeyance, some correspondence having passed between the general and the court, but both sides declined to give out the letters till a settlement is reached. Gen. Miles has not asked to be represented by counsel, presumably because that would put him in the position of admitting himself on trial by the court, which he had declined to admit. On the other hand, the court did not feel able, under the articles of war, to permit Major Lee or anyone else to cross-question witnesses unless he could be recognized officially as counsel for the defense. It was stated that this matter probably would be set-

RIVER AND HARBOR BILL MAY FAIL.

One Point Conferrees Differed on Was the Nicaragua Canal Feature.

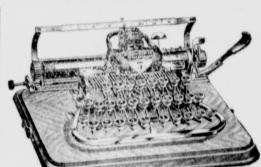

Washington, March 3 .- The river and harbor conferrees adjourned last night until today, having been unable to agree. Chairman Frye of the senate conferrees said:

"We have been unable to agree; that is all there is to say. He was asked: "Is there any pros-

pect of agreement?"

"I can't say," he replied. "It looks very dubious.

The conferrees discussed the different propositions and counter propositions that had been made regarding the Nicaragua canal bill, but upon adjournment, the house conferrees as a whole refused to allow any declaration for a Nicaragua canal in the bill, although Mr. Burton was willing to have a declaration of policy and a liberal appropriation for a commission to select the best route. The senate conferrees offered a proposition looking to an investigation as to the best route and leaving the selection to a commission, but insisting the advance.

REAL AMERICANISM APPROVED.

This the Opinion In Rome of the Pope' Recent Letter.

Rome, March 3.—The impression prevailed here that the pope's letter to Cardinal Gibbons approved real "Americanism" and condemned those who had misrepresented it. The pope collected, examined and definitely repudiated all such misrepresentations.

Evidently he believed that the things so alleged never existed in America. or the American bishops would have denounced them, and his holiness thus vindicated true "Americanism." Arch bishop Ireland's letter appeared to have ably emphasized the pope's views.

EAST LIVERPOOL, O., FRIDAY, MARCH 3

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Onion Labels at the head of their columns

This country paid more than a million dollars to send the Spanish soldiers home from Cuba, but the public seems to think the money was not wasted.

Congress will soon adjourn, but it has much important work before the final note is sounded. It is therefore to be expected that more than one man will make any number of mistakes.

THE announcement is made that Joe Froggett, of the Youngstown Telegram, will be married early next summer. It is therefore but reasonable to suppose that some young lady is very happy.

THE sentiment to allow the people and not state legislatures to elect United States senators is growing. The scandals of every year have their influence, and while the reform may not come immediately it is one of the movements American spirit will push to a successful issue.

WEEKS ago, when it was news, the NEWS REVIEW told the story of the slip on the Lisbon road and the danger to David O'Hanlon's house. Last night a local paper gave the information to its readers. If you want the news you must read the News Review.

THE demands of the day include a larger number of vessels and men for the American navy. They are needed now and they will be needed in years to come when the old flag will fly in every sea and the commerce of the country will have been extended to every land. Now is the time to build them.

#### A FEDERAL BUILDING.

East Liverpool has attained that place among the cities of Ohio where it deserves the destinction given every town with a federal building, but it seems the government at Washington cannot see the matter in that light. Many towns of less importance are so provided and the new appropriation carries large sums for improvements to federal property in a number of cities, yet this one has nothing of that sort. It is certainly something of an injustice that should be set right before the next congress adjourns.

#### HONEST PRIMARIES.

It is possible under the old system to conduct a primary election honestly, but when the Australian ballot is used there can be no suspicion of wrong doing. For that reason the Republican committee, when it meets to arrange for the spring contest, should order the election conducted after the manner prescribed by the law of Ohio.

The innovation will be a good thing for a number of reasons, but principally because the men who receive the largest number of votes will be declared the nominees of the party. In justice to them as well as to the friends who labor so earnestly for their success there should be no opportunity for fraud. so earnestly for their success there Then the party is to be considered. There are thousands of Republicans in Columbiana county who have for many years looked with suspicion upon the primaries. They will hear with satisfaction of the adoption of the new system, for they know the old organization has not so far forgotten itself as to refuse advancement when the opportanity appears.

#### IMPROVEMENTS

Will Be Made by the Telephone Com pany.

The telephone company is considering the advisability of making radical changes in its lines in the city. It is proposed to run all local lines in an overhead cable system, but the trunk lines will necessarily be on the outside. It will cost thousands of dollars and take several months to make the change, as it practically means the rebuilding of the lines. The subject is now before the company and it will probably act with favor upon it.

Another section will be added to the local office as soon as the mechanical department can reach it. This will mean that a fourth operator will be installed in the office, and she will look after the trunk lines, leaving three operators to

A new local and county directory will soon be published. The names will be in the hands of the publisher March 15.

A gang of seven men from Sharon will arrive in the city Monday to make some repairs and put in a number of short lines.

Township Trustees Must Now Retrench.

WERY FEW ROAD IMPROVEMENTS

Will Be Made This Year Because the Appropriation Was Exceeded Last Year and There Must Be a Balancing of Accounts.

The township trustees will not spend a fortune this season in improving the township roads, but will adopt a retrenchment policy.

Last year they expended a great deal of money on the roads and did their best to improve them in a permanent manner. The expenses were heavy and more money was needed to do the work than could be realized from the levy for road improvements, so the balance was taken from the general fund.

This year, in the six districts which compose the township, new road supervisors will be chosen and they will not be permitted to do any more work on the roads than is absolutely necessary. When the repairs are found too costly for the trustees to undertake the commissioners will be called upon, and the county will stand the expense of the improvement.

The trustees will endeavor to follow out the retrenchment policy, and will make the road levy pay for all improvements, and will be able to do it unless the section is visited by the usual heavy storms.

Homestead.

Mrs. Dozzle Replies to the Petition of Her Busband. Asking Divorce and Alimony. she Now Resides in Indiana-Receiver Cameron Files a Suit.

LISBON, March 3.-[Special]-Judge Smith has rendered a decision in the alimony case of Mrs. Louisa Deidrick against her husband, Joseph L. Deidrick. The court granted Mrs. Deidrick the homestead in East Liverpool. The evidence showed that the vacant land owned by Joseph Deidrick is worth \$15,000, the storeroom in Broadway \$2,000 and the homestead about \$12,000 Some time ago Mrs. Deidrick was granted by the court \$2,000.

#### MRS. DOZZLE'S SIDE.

She Asks the Court For a Divorce and Alimony.

LISBON, March 3.-[Special]-In answer to the petition for divorce of Alfred A. Dozzle, on ground of willful absence, the defendant has filed an answer and cross petition. She claims that for 12 vears prior to August, 1896, Dozzle was guilty of extreme cruelty; that he refused and neglected to provide the necessaries of life; that in August, 1896, he compelled her and her child to leave home and to leave all her personal property be-She inherited \$1,000, and she says the plaintiff squandered a part of it in drinking and fast living. With the remainder and what she could make by cleaning offices they purchased a house and lot in Garfield avenue in Liverpool, the plaintiff taking it in his name. She asks alimony for her support during the suit, and the plaintiff be enjoined from encumbering the property, and on final hearing the real estate and personal property be decreed to her. She also wants a divorce and alimony. Mrs. Dozzle is now living in Indiana

#### ANOTHER CASE

Filed In Court by Receiver Cameron of the Bank.

LISBON, March 3.—[Special]—After the judgment of \$148, secured by Isaac \$3.75 a pattern at the Kelly against W. G. Kelly, Judge Smith \* ordered the sale of 101/4 acres in West township.

I. B. Cameron, receiver of the Frst place is at National bank of Lisbon, has filed another petition, this time asking judgment against Willis Jordan as principal and G. W. and Andrew Armstrong as endorsers on two notes. One is for \$500, dated Oct. 14, 1891, and \$142.47 of it is due. The other is for \$1,000, and the whole amount is due.

#### DISORDERLY HOUSE

Will Likely Be Raided by the Virginia Authorities.

The Hancock county authorities will soon raid a disorderly house on the Virginia side opposite Williams' mill. They have been notified of the existence of the place and also of actions which have recently taken place The house in question is nothing less than a shanty built on the hillside, and access is gained by mounting not less than a dozen steps. It is thought the place will be raided some time next week, and already much information regarding it has been obtained.

South and West All Right and the East Improving.

China, Glass and Lamps has looked Judge Smith Gave Her the over the pottery field for the week and finds that trade in all departments is exceptionally good, and west and south it is especially brisk, while in the east MONEY WAS ALLOWED RECENTLY conditions are constantly improving. New goods that were put on the market at the first of the year, have generally been having a good run, this being especially so in novelties, odd pieces and set ware. Toilet goods are in very fair demand. Dinner ware, hotel china and restaurant ware, especially in heavy lines, is quite brisk. Jardinieres, in decorations and art glazes, are being put on the market in large variety, and some large orders have been placed for special lines of these wares. Potters are preparing for a large and steady demand.
